Mass Spectrometry Tutorial Videos

As a resource to the community, and to provide information for those interested in learning more about fundamental and applied aspects of mass spectrometry, ASMS is compiling a library of introductory tutorial videos. To date, four videos have been created and posted to the ASMS website (<http://www.asms.org/about/about-mass-spectrometry>). These are:

- **'The First Fifty Years of Mass Spectrometry: Building a Foundation'**, presented by Michael L. Gross (Washington University, St. Louis) as a plenary lecture during the 2013 ASMS annual conference in Minneapolis.
- **'The Basics of Mass Spectrometry: Mass Analyzers'**, presented by Richard Vachet (University of Massachusetts Amherst)
- **'The Basics of Mass Spectrometry: Tandem Mass Spectrometry, or MS/MS'**, presented by Scott A. McLuckey (Purdue University).
- **'Imaging Mass Spectrometry: An Overview'**, presented by Michelle Reyzer (Vanderbilt University)

If you have suggestions for future tutorial video projects, or other Educational content for the website, please contact the Member-at-Large for Education, or a member of the Education committee ([http://www.asms.org/about/asms-leadership/
