Top-Down Proteomics (one-day course 21)
AND Mass Spectrometry Data Analysis and Visualization (one-day course 27)

These two 1-day courses are related so we bundled them as a two-day course. There is a cost savings in purchasing a 2-day course versus two 1-day courses. If you are interested in attending just one of the days, register for the 1-day course.

Note: These are separate courses so the Saturday instructors will not be attending the Sunday course and vice-versa.

Top-Down Proteomics
(Saturday one-day course #21)
Instructors

Ying Ge
University of Wisconsin, Madison

Joseph Loo
University of California, Los Angeles

Neil Kelleher
Northwestern University

Ljiljana Pasa-Tolic
Pacific Northwest National Laboratory

Mass Spectrometry Data Analysis and Visualization
(Sunday one-day course #27)
Instructors

Xiaowen (Kevin) Liu
Tulane University

Mowei Zhou
Pacific Northwest National Laboratory

Sean McLlwain
University of Wisconsin
