## Awards

**Susan D. Richardson**, the Arthur Sease Williams Professor of Chemistry in the Department of Chemistry and Biochemistry at the University of South Carolina, has been named a 2016 American Chemical Society (ACS) Fellow. The Fellows Program began in 2009 to recognize and honor ACS members for outstanding achievements and contributions to science, the profession, and the ACS. Prof. Richardson received her B.S. in chemistry and mathematics from Georgia College & State University and her Ph.D. in chemistry from Emory University. Prior to moving to USC in January 2014, she was a Research Chemist for several years at the U.S. EPA's National Exposure Research Laboratory in Athens, GA. For the last several years, Susan has been conducting research in drinking water—specifically in the study of toxicologically important disinfection by-products (DBPs). She was the recipient of the 2008 American Chemical Society Award for Creative Advancements in Environmental Science & Technology, and has received an honorary doctorate from Cape Breton University in Canada (2006). She also serves as an Associate Editor of *Water Research* and on the Editorial Advisory Board of *Environmental Science & Technology*, *Rapid Communications in Mass Spectrometry*, *Journal of Hazardous Materials*, *Environmental Science and Pollution Research*, and *Journal of Environmental Sciences*. Susan has published more than 130 journal articles and book chapters and has written two ongoing invited biennial reviews for the journal *Analytical Chemistry* on Emerging Contaminants in Water Analysis and Environmental Mass Spectrometry.

## JASMS Introduces New Associate Editor

We welcome Dr. Lingjun Li to *JASMS* as a new Associate Editor. Lingjun is a Vilas Distinguished Achievement Professor and Professor of Pharmaceutical Sciences and Chemistry at the University of Wisconsin-Madison. She received her B.E. degree

in Environmental Analytical Chemistry from Beijing University of Technology and a Ph.D. in Chemistry from the University of Illinois at Urbana-Champaign. She has been recognized with numerous awards, including the 2014 ASMS Biemann Medal. Dr. Li has been active with the Chinese American Society for Mass Spectrometry (CASMS), serving as President and a member of the Executive Team. Her group develops novel MS-based tools, including new chemical labeling strategies for quantitative proteomics, microscale separations, *in vivo* microdialysis, imaging MS for functional discovery of signaling peptides and metabolites, and the application of these tools to biomarker discovery in neurological diseases. She is a co-organizer of the 2017 ASMS Sanibel Conference on “Peptidomics: Bridging the Gap between Proteomics and Metabolomics by Mass Spectrometry.”

## The Nuts and Bolts of Organizing the ASMS Annual Conference Program

Are you interested in learning how 3,300+ abstracts are arranged into the annual conference program? To answer some of the questions you may have, including ‘How are topics for oral and poster sessions selected?’, ‘How are Chairs and speakers of oral sessions selected, and how are the oral sessions arranged in the schedule?’, ‘How are poster abstracts reviewed?’, ‘What are the primary reasons some abstracts are rejected?’, and ‘Why are some oral sessions dedicated in honor of members, and how are these selected?’, a short FAQ may be found at [www.asms.org/conferences/annual-conference/conference-program/nuts-bolts-of-organizing-conference-program](http://www.asms.org/conferences/annual-conference/conference-program/nuts-bolts-of-organizing-conference-program).
