Endogenous metabolites have gained increasing interest over the past five years largely for their implications in diagnostic and pharmaceutical biomarker discovery. Although numerous small molecules are routinely measured in biofluids as indicators of health, little is known about the vast majority of metabolites. For example, biofluids contain thousands of components, many of which remain structurally and functionally uncharacterized. For this reason, metabolite research and its potential in health and pharmaceutical development has become one of the most exciting areas of biological discovery. Three of the broad aims of this field are to identify new disease biomarkers, monitor physiological reactions to administered drugs and to understand the function of metabolites.

This Asilomar meeting will focus on the latest challenges in metabolite profiling, spanning a broad range of interests including research trends and instrument developments.
Saturday, October 16

7:30 - 9:00 AM  **Asilomar breakfast for on-site lodgers.**  *Crocker Dining Hall. Asilomar meal ticket required.*

8:30 - 9:00 AM  **Speakers**, please connect laptops to LCD projectors.  *Chapel*

9:00 AM – 12:00 PM  **ENDOGENOUS METABOLITES AND XENOBIOTICS**

9:00 - 9:30 AM  **John Wagner**, Merck Research Laboratories, Rahway, NJ  *Biomarkers in Rational Drug Development*

9:30 - 10:00 AM  **John Vogel**, Lawrence Livermore Natl. Laboratory, Livermore, CA  *AMS Quantitation of Metabolism: From Individual Humans to Individual Cells*

10:00 - 10:30 AM  **Alan Saghatelian**, The Scripps Research Institute, La Jolla, CA  *Assigning Endogenous Substrates of Enzymes by Global Metabolite Profiling*

10:30 - 10:45 AM  **BREAK**

11:15 - 11:45 AM  **C. Logan Mackay**, Natl. High Magnetic Field Laboratory, Tallahassee, FL  *Capillary Electrophoresis and Top Down ESI FT-ICR Mass Spectrometry for the Characterization of Renal Disease Biomarkers*

12:00 - 2:00 PM  **Asilomar lunch.**  *Crocker Dining Hall. Asilomar meal ticket required.*

1:30 - 2:00 PM  **Speakers**, please connect laptops to LCD projector.  *Chapel*

2:00 – 6:00 PM  **METABOLITE BIOINFORMATICS**

2:00 - 2:30 PM  **Colin Smith**, Scripps Research Institute, La Jolla, CA  *METLIN: A Metabolite Profiling Database*

2:30 - 3:00 PM  **Robert Mistrik**, HighChem, Ltd., Bratislava, Slovakia  *Mapping the Human Metabolome: A Software Problem?*

3:00 - 3:30 PM  **Thomas Hankemeijer**, TNO/Leiden University, Leiden, Netherlands  *Metabolomics: Quo Vadis?*

3:45 - 4:00 PM  **BREAK. Poster presenters**, please connect laptops to LCD projector.

4:00 - PM  **POSTER PRESENTATIONS, 5 minutes each**

5.  **Paul E. Minkler**, Louis Stokes VA Medical Center, Cleveland, OH

6.  **Emma Edwards**, University of York, York, UK

7.  **Darren Dumiao**, University of California, Los Angeles, CA

8.  **Zhihong O’Brien**, Ligand Pharmaceuticals, San Diego, CA

9.  **Lekha Sleno**, National Research Council, Halifax, Canada

6:00 - 7:00 PM  **Asilomar dinner for on-site lodgers.**  *Crocker Dining Hall. Asilomar meal ticket required.*

7:00 - 10:00 PM  **Taste of Monterey Wine Reception. Sponsored by Advion Biosciences.**  *Scripps Conference Room*
7:30 - 9:00 AM  Asilomar breakfast for on-site lodgers.  Crocker Dining Hall.  Asilomar meal ticket required.

8:30 - 9:00 AM  Speakers, please connect laptops to LCD projectors.  Chapel

**9:00 AM – 12:00 PM  SEPARATION TECHNOLOGY**

9:00 - 9:30 AM  Richard D. Smith, Pacific Northwest National Laboratory, Richland, WA  
* Nanoflow Capillary Liquid Chromatographic-Mass Spectrometry for High Throughput Quantitative Metabolomic Analyses

9:30 - 10:00 AM  Andrew Baker, Waters Corporation, Beverly, MA  
* UPLC-MS for Increased Throughput, Sensitivity and Resolution

10:00 - 10:30 AM  Ben Bolanos, Pfizer, Inc., San Diego, CA  
* Leveraging SFC/MS to Broaden Plasma Biomarker Metabolite Profiling

10:30 - 10:45 AM  BREAK

10:45 - 11:15 AM  Elizabeth Want, The Scripps Research Institute, La Jolla, CA  
* Metabolite Profiling in Disease

11:15 - 11:45 AM  David Millington, Duke University Medical Center, Durham, NC  
* Applications of Targeted Metabolic Profiling

12:00 - 1:00 PM  Asilomar lunch.  Crocker Dining Hall.  Asilomar meal ticket required.  If you wish to picnic, ask for a lunch “to go” when you go through the line!  
**AFTERNOON FREE**

**6:00 - 7:00 PM  Asilomar dinner for on-site lodgers.  Crocker Dining Hall.  Asilomar meal ticket required.**

6:30 PM  Speakers, please connect laptops to LCD projectors.  Chapel

**7:00 – 8:30 PM  GLOBAL SYSTEMS BIOLOGY AND THE HUMAN SUPERORGANISM**

7:00 - 7:40 PM  Jeremy Nicholson, Imperial College, London, UK  
* Understanding Global Systems Biology and the Human Superorganism: The Greatest Challenge in Analytical Chemistry and the 21st Century Medicine?

7:45 - 8:30 PM  POSTER PRESENTATIONS

10.  Charles L. Hoppel, Louis Stokes VA Medical Center, Cleveland, OH

11.  Qingfen Zhang, University of Arizona, Tucson, AZ

12.  Ming Gu, Cerno Bioscience, New Haven, CT

13.  Arman Yaghoubian, University of California, Los Angeles, CA

**8:30 - 10:00 PM  Informal Gathering.  Scripps Conference Room**
### Monday, October 18

| **7:30 - 9:00 AM** | **Asilomar breakfast for on-site lodgers.**  
**Crocker Dining Hall.**  
Asilomar meal ticket required.  
Box lunches will be available at the door as you depart breakfast. |
| **12:00 - 1:00 PM** | **Asilomar lunch for on-site lodgers.**  
**Crocker Dining Hall.**  
Asilomar meal ticket required.  
Depart at leisure. |
We wish to thank Taylor Technology and Eksigent Technologies for their support.

2. **Application of the Accurate Mass and Time (AMT) Tag Approach to Global Metabolomics Studies of Microbial Systems**; Thomas O. Metz; Pacific NW National Laboratory, Richland, WA.

3. **Chemical Derivatization and Data Analysis Approaches to Metabolite Profiling**; Grace Tong; The Scripps Research Institute, La Jolla, CA.

4. **Metabolic Profiling of Pancreatic Islets and a Novel Ionization Method for Mass Spectrometric Analysis of Metabolite Mixtures**; Brian Frey; University of Wisconsin, Madison, WI.

5. **Determination of Carnitine and Acylcarnitines in Biological Matrices by HPLC/ESI/MS**; Paul E. Minkler; Louis Stokes VA Medical Center, Cleveland, OH.

7. **Methyltransferome to Metabolites: The Use of Metabolomics in the Identification of the Major Substrate (3-isopropylmalate) for a Known Saccharomyces Cerevisiae Enzyme (Tras-Aconitate Methyltransferase)**; Darren Dumlao; University of California, Los Angeles, CA.

8. **Perillyl Alcohol, A Model Substrate for Multiple Phase I and Phase II Metabolic Profiling**; Zhihong O’Brien; Ligand Pharmaceuticals, Inc, San Diego, CA.

9. **MALDI triple Quadrupole MS for Small Molecule Quantitation and Screening in Biological Samples**; Lekha Sleno and Dietrich A. Volmer; National Research Council, Halifax, NS, Canada

10. **Isolation and Identification of Two Forms of Malonyl-CoA in Commercial Malonyl-CoA**; Charles L. Hoppel; Louis Stokes VA Medical Center, Cleveland, OH.

11. **Ammonia Metabolism in Mosquitoes Examined by Mass Spectrometry in Multiple-reaction Monitoring Mode**; Qingfen Zhang, *Patricia Y. Scaraffia Vicki H. Wysocki and *Michael A. Wells; *Department of Chemistry. *Department of Biochemistry & Molecular Biophysics, University of Arizona, Tucson, AZ.

12. **A Novel Approach to Achieve High Mass Accuracy for LC/MS Metabolite Identification**; Ming Gu; Cerno Bioscience, New Haven, CT.

The Monterey Peninsula is a perfect place for a romantic weekend or exciting adventure. There are so many year-round activities, that you're limited only by your time and sense of adventure.

From historic adobes and landmarks to Fisherman's Wharf and the Monterey Bay Aquarium, Monterey has something for everyone. Visit Steinbeck's Cannery Row, Colton Hall and the Monterey Museum of Art. Stroll the recreational trail along the coast or see the wildlife close-up on a kayak adventure on the Bay.

When in Pacific Grove don't forget to check out the Monarch butterflies which make PG home for the winter, Asilomar State Beach, historic bed and breakfast inns, Lover's Point and the Pacific Grove Museum of Natural History.

Pebble Beach attractions include the 17-Mile Drive, Stillwater Cove, the Lone Cypress and an array of world-class golf courses and hotels.

Carmel Valley is home to many wineries, farms, ranches. And don't miss Big Sur with its Esalen Institute, Henry Miller Memorial Library, Point Sur Lighthouse, camping, hiking, beautiful redwood groves and excellent whale-watching.
